### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Applicant's amendments and arguments filed 11/14/2007, see pages 11-17, have overcome the objections to the specification and the rejections under 35 U.S.C. §101 and 35 U.S.C. §112, second paragraph. All outstanding objections/rejections have been withdrawn.

Claims 53-54, 56-59, 65, and 71 are considered allowable since when reading the claims in light of the specification, as per MPEP §2111.01 or In re Sneed, 710 F.2d 1544, 1548, 218 USPQ 385, 388 (Fed. Cir. 1983), none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims including wherein "the semantic vector for the query or each for the data sets is constructed by" the combination of all of the recited steps, including "for each data point, identifying a relationship between each data point and multiple predetermined categories corresponding to dimensions in the semantic space" (supported at e.g., page 4 line 14 – page 5 line 2 and page 17 line 17 – page 18 line 2) and "wherein the significance of each data point occurring in each predetermined category and a probability distribution of the data point's occurrence across all predetermined categories" (supported at e.g., page 16 line 11 – page 17 line 16), as specified in independent claims 53, 57, 65, and 71.

The Examiner was persuaded by the arguments filed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
